

ALLEN GUECO

allen.gueco1@gmail.com — Philadelphia, PA

EDUCATION

Villanova University
B.S. in Computer Science

May 2020
Villanova, PA

EXPERIENCE

BNY Mellon | Pershing
Lead Full Stack Engineer

June 2020 - Present
Pennington, NJ

- Developing an internal load testing tool to monitor and benchmark existing critical microservices.
- Creating and maintaining REST-ful APIs and microservices using Spring Boot and its related technologies.
- Designing and developing responsive and mobile-friendly login screens for company products.
- Helping to create an internal tool which collect runtime information of Java-based projects using Java Agents.
- Containerizing various types of frontend and backend applications using Docker and deploying on-prem.
- Maintained CI/CD pipelines to greatly improve developer workflow.

Villanova University
Web Application Consultant

Sep 2019 - May 2020
Villanova, PA

- Developed additional features of Villanova University's official mobile app by overhauling the UX/UI.
- Assisted in creating a Microsoft Power App that unified information across different campus departments.

AmerisourceBergen Corporation
EDI Intern

June 2019 - Aug 2019
Chesterbrook, PA

- Assisted the development of an automated testing tool for the Electronic Data Interchange (EDI) team to ensure data integrity from b2b transactions.
- Designed APIs through MuleSoft to provide a RESTful service for the tool.
- Created an Oracle PL/SQL procedure that produces and emails a report based on the result of an ad-hoc query.
