

# ALLEN GUECO

allen.gueco@gmail.com — Philadelphia, PA

## EDUCATION

---

**Villanova University**  
B.S. in Computer Science

May 2020  
*Villanova, PA*

## EXPERIENCE

---

**BNY Mellon | Pershing**  
*Senior Associate, Full Stack Developer*

June 2020 - Present  
*Pennington, NJ*

- Developing an internal load testing tool to monitor and benchmark existing critical microservices.
- Assisting in rewriting critical components for an internal configuration management tool.
- Creating and maintaining REST-ful internal APIs and microservices using Spring Boot and its related technologies.
- Helping to create an internal tool which collect runtime information of Java-based projects using Java Agents.
- Containerizing frontend and backend applications using Docker and deploying on-prem.
- Designed responsive and mobile-friendly login screens for company products.
- Maintained CI/CD pipelines to greatly improve developer workflow.

**Villanova University**  
*Web Application Consultant*

Sep 2019 - May 2020  
*Villanova, PA*

- Developed additional features of Villanova University's official mobile app by overhauling the UX/UI.
- Assisted in creating a Microsoft Power App that unified information across different campus departments.

**AmerisourceBergen Corporation**  
*EDI Intern*

June 2019 - Aug 2019  
*Chesterbrook, PA*

- Assisted the development of an automated testing tool for the Electronic Data Interchange (EDI) team to ensure data integrity from b2b transactions.
- Designed APIs through MuleSoft to provide a REST-ful service for the tool.
- Created an Oracle PL/SQL procedure that produces and emails a report based on the result of an ad-hoc query.
